Meeting Attendance:

Business/ fire training meetings are held on the 2nd and 4th Tuesday of each month with medical training meetings on the 3rd Tuesday of each month. Our by-laws and standard operating guidelines require attendance at all regular meetings unless properly excused. Repeated absences without authorized approval may be sufficient cause to dismiss a member from the department. If other scheduled meetings or work activities prevent an individual from attending fire department meetings on a regular basis, membership will be denied or terminated.

Ability to Respond:

Consult your employer now so that you will have an understanding concerning your leaving work when summoned to a call by the department. We understand that there are times when it would be impossible to leave your work or business, but as a general rule, you should be available 24 hours of the day for emergency work with the department. There are also fire drills, training, and other work to be done other than at the scene of a fire, and your presence and help will be needed at such sessions.

I have read and completed the above form and believe that I will be able to comply with the by-laws and Standard Operating Guidelines, that may be changed from time to time, of the Tri-Lakes Volunteer Fire Department. I also understand that the Department will perform a background check using the information provided in this application.
